THE "Press Commissioner" is at it again, but on this occasion as he has merely occupied a field which has been already well worked, the surprise thereat is not overpowering. The Tokic weekly is not the organ which commands the greatest amount of respect on this side of the globe, although its conductor has been seized with a "twirtnous" conviction that this Colony contains a rapacions horde of European, American and other adventurers who are kept in check by the elevating "leaven" of their great and good ruler, H. Gazette:-Yanagiwara was born about forty years age in Kieto, in which city he was educated and where he long remained a resident. During the revolution Yanagiwara, a kugé, took an active part, and rendered valuable military service in the cause of the Mikado. These services have been highly appreciated by his Majosty, and also by the people, with whom Yavagiwara is very popular. On the conclusion of the revolution, and when his Majesty was firmly seated upon the throne, Vanagiwara visited Europe and America on Government service. During his stay abroad he said much attention to science and literature, for which he is said to possess remarkable aptitude. Of quick and clear judgment, and with the power of seeing a straight path out of difficulty. Yanagiwara was chosen as the colleague of the late Minister Okubo, on special mission to Ohina in connection with the Japanese invasion of Formore; and it is said the advice he offered to Okubo led to the settlement of the difficulty which, at one time, threatened to have a serious termination. He was subsequently nominated a member of the Genro-in, and president of the Committee for the Codification of the Civil Law. His mater is Gonten it and mother of the infant prince Harnhito.

Hongkong, March 29. Sir, -The presence in the waters of Hongkong of the Erench frigate Themis induces me to lay before the public, through the medium of your valuable journal, the deplorable state of affairs in longuin, where of late I have been travelling. The upper part of Song Koi, few miles above Hanol, entirely in the bands of the He ki, or black flags, the possible residue of the Taipings of Kwansi; they are not only tolerated but employed by Annamite mandarine from the time that they killed the unfortunate Francis Garnier (Dec. 1873). Their head-quarters are at Loo-kal. France has had, for the last six years, a garrison at Hanel; an impromptu Consul, a lieutenant in the Navy, is besides residing there, probably to ensure to foreign trade freedom of transit as far as the Chinese frontier of Yunnam; but, in truth, trade would be equally secure without Consul nor garrison at Hanoi addition to the He ki above Har oi. Tonquinese province of Bacoinh is occupied by regular Chinese troops from the recent spoch when the rebelgeneral Ly was pursued ficient Treaty of 1874, must be exclusively from the distressed districts," and that his felt in Russia and throughout Europe at mont, that the House proceed to the Order From it. THE OHINA REVIEW.

THE widely-expressed regret at the dis-continuance of Notes & Queries on ful. THE CHIEA REVIEW, or Notes and sons passing through the City, and

extra matter. The subscription is fixed at \$6,50 postage paid, per annum, payable by non-residents

in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Oustons, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Por-tuguese, are admissible. Endeavours are made to present a resumé in eachnumber of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in band. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. DORABJEE AND HING-Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, "judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years up on the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable : and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Uhinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary real to that which was displayed during the lifetime of its prede-cessor in the field, and that the China Review may receive the support necessary to insure its continuance. The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan, from Australia, California, Singapore, Penang, Salgon, and other places frequented by the Chinese,—consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies.
